EDUCATION

Southern University of Science and Technology(SUSTech), Shenzhen *Sep 2019-Present*
Junior Undergraduate Major in Statistics, Department of Statistics and Data Science

- GPA: 3.87/4.00 Ranking: 2/43(top5%)
- Core courses: Probability Theory(100), Mathematical Statistics(100)

SKILLS

R, Python, MATLAB, Java, LaTeX

RESEARCH EXPERIENCE

Prof. Jicong Fan's Group(Computer Vision) *Jul 2021- Sep 2021*
Research Intern, School of Data Science, CUHK-Shenzhen *Shenzhen, China*

- Deriving the kernel version of Selective Sampling-based Scalable Sparse Subspace Clustering for non-linear cases.
- Solving LASSO problems in our research by using the cyclic coordinate descent method.

Prof. Alice Cheng's Group(Content Analysis) *Jul 2021-Aug 2021*
Research Intern(Remote), Department of Communication, NC State University *NC, U.S.A*

- Using content analysis to research COVID-19 hot issues and agenda building in China.
- Examining the reliability by calculating coefficients like Scott's Pi, Cohen's Kappa, and Krippendorff's alpha.

PROJECT& SEMINAR

Data Mining Applications in DC Crime(Supervisor: Prof. Zhen Zhang) *Spring 2021*

- Data statistics and data visualization, including data preprocessing, visualization, correlation analysis and analysis of crimes over geography and time.
- Classification & Clustering: classify(cluster) the geography by the crime events.
- Predicting the number of crimes in the future and using PCA to reduce dimensionality.

Self-contained Report on Discrete Math(Supervisor: Prof. Qi Wang) *Fall 2020*

- Stating the methods of solving linear recurrence relations in the language of linear algebra.
- Report: <https://hanbin-liu.github.io/linear-recurrence-report/>

AWARDS & HONORS

- The 12th Chinese Mathematics Competitions(Provincial Firsr Prize) *Dec 2020*
- China National Encouragement Scholarship *Nov 2020, 2021*
